we're inspired by ...

pop-ups

We can't help but marvel at the whimsical genius of paper artists. Pop-up books are no longer just child's play – these 3D forms are amazing artworks, opening up like budding blooms to feed the imagination and have you looking at the world from a different angle. We find ourselves inspired to create our own works of paper art.

WORDS & STYLING STEPHANIE POWELL, PHOTOGRAPHY CRAIG WALL
